CA Air Resources Board
Headquarters Building
Box 2815
Sacramento
95812

Dear Board members,

There is increasing global evidence that the current build-up of greenhouse gases is contributing to the disruptive weather patterns the earth has been experiencing over the past 3 - 5 years.

Any measures that consumers can take to decrease their personal greenhouse gas contributions are urgently required.

CARB can support a drop in greenhouse gas build-up by mandating a plug-in 0 emissions vehicle standard. This kind of mandate will lawfully require auto manufacturers to supply "alternative" clean-air engines in their automotive products.

Please impose this kind of mandate immediately.

Sincerely,

A handwritten signature in cursive script that reads "Cydney Henderson". The signature is written in dark ink and is positioned below the word "Sincerely,".

Cydney Henderson
